**Re: ISIS-4288; Gapped Oligomers Having Site Specific Chiral Phosphorothioate Internucleoside Linkages; Application Serial No. 09/438,989; Yogesh S. Sanghvi, et al.**

Dear Mary:

Further to our discussion, enclosed are publications that need to be hand delivered on January 6, 2005 to Paula Hutzell of Technology Center 1600 in the Remsen Building. Before going to the Remsen Building, whoever is making the delivery should call Ms. Hutzell on her cell phone at 703-772-3274.

Thank you for your attention to this matter. Please do not hesitate to contact me should you encounter any problems.

Very truly yours,

Joseph Lucci
